ACHIEVEMENTS

Best Project (multiple times)

Saturday Hacknight

ADITH RAMDAS

B Tech Student - Computer Science & Engineering

* -> Clickable

EDUCATION

BTech. - Computer Science & Engineering
College of Engineering Trivandrum - Kerala (India)

2021 - ongoing

Current Status: Fifth Semester Ongoing (Third Semester CGPA - 8.8)

Higher Secondary School
Amrita Vidyalayam Thalassery - Kerala (India)

2018 - 2021

Was the School Head boy twice.

EXPERIENCE

Aquaria Core

2023

Worked on a product helping brands to elevate their presence and increase their revenue. This is done by setting a metric to help companies introspect and at the same time, help them with their weaknesses.

Campus Lead, TinkerHub CET

2023- Present

Tinkerhub CET is the college chapter of Tinkerhub Foundation, a community of tech enthusiasts from all over India. I, along with my team, was able to pull off 12 events in 4.5 months, with more than 1450 participants.

Cybersecurity Admin,

2022- Present

We organized sessions and events on Information Security and Competitive Programming. CSCP is the Cybersecurity and Competitive Programming Club of CET.

IEDC Web Developer

2022

Was part of the developer team of IEDC. IEDC is an entrepreneurial initiative from the State of Kerala, spread across 100+ colleges.

Web Penetration testing

2021

Secured "marketfeed", a company with more than 250Cr in revenue, from a vulnerability that got me access to the admin panel of the website.

PROJECTS

GenImg
[Link to GenImg*](#)

2023

Tool: MERN, Cloud, Dall-e API

A web app where people can bring their imagination to a picture and share it with the community for others to download.

Saturday Hacknight is a hackathon conducted across the state once every month

Hackathon First Prize

Dec 2022

Won first prize in one of Kerala's largest hackathon, Winterhack with over 100 teams

MyPin

[Link To MyPin*](#)

2023

Tool: React, GMap API

A responsive website that shows the user the postal code of his/her current location.

Movie-Recommender based on mood

[Link to Github*](#)

2023

Tool: Web Scraping, Python, Machine Learning

A tool built with Python libraries such as BeautifulSoup and Requests, to help users to find recommendations for movies based on their mood.

RoomChat

[Link to Chat App*](#)

2022

Tool: React, Redux, Firebase

A web-app which facilitates community message transfer, implemented with rooms (a place with a group of people)

Assignmenttor

[Link to Github*](#)

2023

Tool: Flask, OpenAI API

Tool which helps the students get their assignments done in a handwritten format just with a single upload of the question sheet

Expensator

[Link To Github*](#)

2022

Tool: Python, Gmail API

A tool that helps the user to calculate the daily expenses by storing online transaction amounts from transaction emails in specific columns of an Excel file
